

mipalloy®

Complete Competence in Copper

ISO 9001 : 2015

ISO 14001 : 2015

OHSAS 18001 : 2007

PROJECTION WELDING ELECTRODES

Mipalloy's projection welding electrodes are the gold standard in the industry for nut welding

All mechanical parts are precisely manufactured in CNC machines

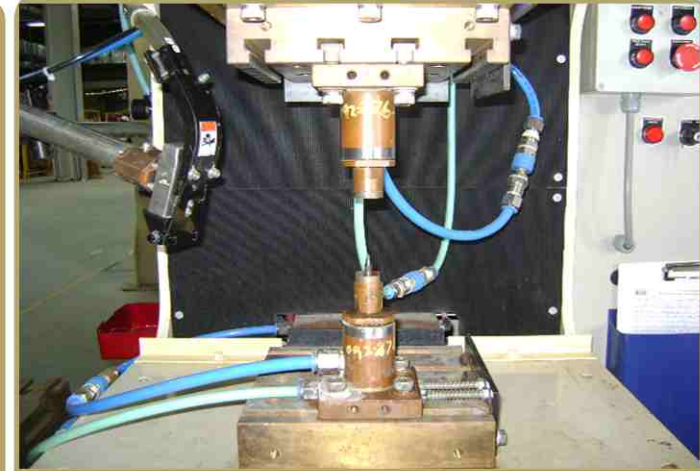

Spring with high Young's modulus for efficient performance

Ceramic coated Stainless Steel pins with high surface hardness & insulation to ensure long service life

Electrode body made out of Chromium Zirconium Copper ensuring good combination of electrical conductivity & hardness

Tungsten Copper face having high micro hardness & extreme wear resistance ensures high life of projection welding electrode

Tungsten Copper facing joined to Chromium Zirconium Copper body by a special joining process

SPOT WELDER CAP TIPS AND SHANKS

SEAM WELDER WHEELS

STUD WELDER COLLETS

SPOT WELDING ELECTRODES

MIG WELDING CONTACT TIPS & HOLDERS

BENT AND SPECIAL ELECTRODES

SPOT WELDER SCREWED ADAPTORS

FLEXIBLE LAMINATED SHUNTS
